Aberdeen Ramblers Energy Walk Inverurie

29th November 2015

24 members took part in our walk on a brisk winter’s day.

We walked along the River Don, then across to a Pictish stone circle and on to walk part of the old Inverurie to Aberdeen Canal which was used to transport freight before the coming of the railways.

The walk then took us round The Bass, a 12th century Motte and Bailey castle and finally through Keithhall Estate back to Inverurie where we all enjoyed our festive supper.
