Place: Canillas de Albaida- Salares-Sedella
Distance: 13 km. Lineal
Altitude max.: 861 m
Elevation gain/loss: 728 m
Difficulty: medium

Elements related to the energy
The river water. Irrigation canals. Watermills ...

Route description:
Eurorando route 2016 (June) started from the beautiful village of Canillas de Albaida in Las Sierras de Tejeda, with a distance of 13.04 Km, beginning in the area of the mill. We crossed the river Cájula to address the Cruz del Muerto. Then we followed the path that leads to the Solana Casa de Haro where we made a short break to enjoy the surroundings at Cortijo Casa de Haro. Still being ruined we could appreciate the importance of the place and its rural activity.
We descended to the village of Salares not before enjoying its Roman bridge. From the centre of the town we left the place towards the Herrizas, coinciding with the path of the GSM (Gran Senda Malaga).
Our next stop was to see the Roman bridge to continue to our destination in the recreation area, making a stop on the Sedella mill recently rebuilt.
We could regain strength and rest enjoying a paella rice and good chilled drinks.

**M.I.D.E.**

Difficulty: level route VALUATION according to Route Method Information (M. I. D. E.) which gives a numerical value (from 1 to 5) to the four aspects considered:

- **MEDIUM**: Severity of the natural environment where it develops. → 1
- **ITINERARY**: Difficulty guidance for choosing and staying in the itinerary → 2
- **MOVEMENT**: Difficulty displacement (type of road, climbs, etc.). → 3
- **EFFORT**: Effort required to make the trip. → 3
