

*36° Youth Walking Meeting – SAN GENESIO, June 2th 2011*

***EURORANDO 2011 - The water of the Adda River***

by Silvana DOLLI – President of Regional Committee Lombardo of the F.I.E.

*June 2th 2011, the 36° Youth Walking Meeting is developed, organised by the F.I.E. Regional Committee Lombardo and from the G.E.B. Group Walkers Briviesi.*

*The Program chosen by the organisers has wanted valorise the environmental beauties of the place. From the course of the Adda River that flows there and characterises the history of these territories, a cruet of water has been picked to be transported to Granada for the closing event of "Eurorando 2011". We walked long ancient paths, that make to return to the mind "past times"; the ancient village of Campsirago, evidence of the agricultural activities that characterised these places; the Church and the Convent of St. Genesio, signs of the faith and prayer.*

*The 400 boys participants to the Meeting are challenged themselves in games for teams organised at the end of the day. Thanks and regards are not missed, the delivery of the prizes to the intervened Associations. A special gift as memory of the 36° Meeting has been given to all the boys of the walking course organised by the F.I.E.. Finally, joy and friendship for everybody.*

***"WALKING AND THE F.I.E." ..... a reflection.....***

*The walking activity is a fundamental part on the F.I.E' s activities. To walk gives the opportunity for a direct contact with the natural environment, it helps to deepen the tied up themes to the relationship between man and environment through the signs left on the territory; it make easy to establish an affective and emotional relationship among the man and how much it surrounds him.*

*All of this is how much we wish to transmit to the young people that we bring along the paths during the walking courses, first of all to give testimony of something that we have acquired in the years, to allow them to reach these knowledge through the contact with the nature, to stop to observe, to touch with hand, to listen to the voice of a wood, to win the fears, to make them protagonists of the day spent with us.*

*The day of the "Meeting", is inspired always to the sharing, to the comparison and to exchange experiences, with the common objective to strengthen the will to continue our walk.*

*SOME MEMORIES...*
